ENERGIA - HOLIDAY ON ICE

Holiday on Ice is worldly known for its live performances on ice.

Belgian scenery designer Bart Clement turned to our Belgian partner ShowTex for the Energia decor. He decided to use a very big and special designed ShowLED Chameleon starcloth that consists of 9 different pieces measuring 10m x 30m in total. These unique and custom made Chameleon starcloths add that extra lighting effect to the Energia show and together with the great acrobats they lift this spectacle to the highest level.

INSPIRATION, DINNERSHOW OF DREAMS

Wentink Events presents 'Inspiration, the Dinnershow of Dreams'.

For this breathtaking show, our Dutch partner ShowTex NL supplied 3 custom made Chameleon starcloths. One Chameleon backdrop measured 3m30 by 11m30 and two other starcloths measured 5m45 by 13m. All these starcloths were finished like theatre backdrops; single band and eyelets on top, hemmed sides and a pocket for a weight strand at the bottom. In the 1000m² ceiling, loose Classic LEDs were placed to create a star ceiling. All this turns this show into a memorable spectacle.

ROYAL PALACE ADAM MEYER

Royal Palace Adam Meyer in Kirrwiller is one of the leading cabarets in France.

ShowLED provided eight high density Chameleon curtains (15 LEDs/m²), specially designed for the theater. All the existing theatre curtains with the older pea bulb system were replaced with more than 2500 Chameleon RGB LEDs. The legs, borders and side curtains were completely covered with LEDs and we provided cutouts for stage doors and cable gutters.

Night of the Proms

LEDs

- high output RGB LEDs
- additive colour mixing
- wide viewing angle
- replaceable pull-and-push LEDs
- patented velcro mounting system

CONTROLLER

- 8 output channels (for max 512 LEDs)
- stand-alone mode with Chase Patterns and Effects Memory
- DMX-compatible
- dimensions: 211 x 211 x 60mm
- weight: 1,90 kg

CONNECTOR BOX

- 2x connector clips per channel
- maximum 256 LEDs per connector box or 32 LEDs per output
- velcro attachment of connector box to cloth
